INDEPENDENT AUDITOR'S REPORT

August 11, 2006

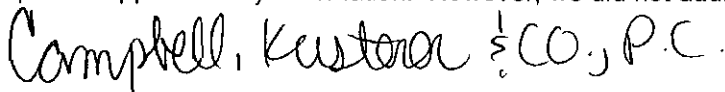

To the Authority Commission
Laingsburg, Sciota, Woodhull Emergency Services Authority
Shiawassee and Clinton Counties, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of Laingsburg, Sciota, Woodhull Emergency Services Authority, Shiawassee and Clinton Counties, Michigan as of and for the year ended March 31, 2006, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Laingsburg, Sciota, Woodhull Emergency Services Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Laingsburg, Sciota, Woodhull Emergency Services Authority, Shiawassee and Clinton Counties, Michigan as of March 31, 2006, and the respective changes in financial position thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and budgetary comparison information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the year ended March 31, 2006

The Management's Discussion and Analysis report of the LSW Emergency Services Authority ("the Authority") covers the Authority's financial performance during the year ended March 31, 2006. The Authority has two divisions, the Fire Division and the Ambulance Division.

FINANCIAL HIGHLIGHTS

Our financial status remained stable over the last year. Net assets at March 31, 2006, totaled \$1,309,246.17 for governmental activities. Capital assets increased with the Fire Division's purchase of defibrillators for \$14,000.00.

Overall revenues were \$475,058.07. The Ambulance Division generated \$267,003.87 while the Fire Division generated \$208,054.20. Governmental activities had a \$106,750.33 increase in net assets.

The Fire Divisions main revenue is from one mill that is collected from the City of Laingsburg, Sciota Township, Woodhull Township and a portion of Bennington Township. The total taxable value is \$181,923,000.00, which has increased from last year.

The Ambulance Division has two main sources of revenue. The Ambulance collects \$45 per household from the City of Laingsburg, Sciota Township and a portion of Woodhull Township. The total of the special assessment equals \$125,235.00, with a total of 2,783 households. The number of households has been increasing annually due to the area's growth. The Ambulance Division increased the rate from \$30 to \$45 per household during the year ended March 31, 2006. Revenue increased from adding the portion of Woodhull Township that had previously been served by another service, now the entire Township of Woodhull is covered by LSW Emergency Services Authority.

OVERVIEW OF FINANCIAL STATEMENTS

This annual report consists of three parts, management's discussion and analysis, the basic financial statements and required supplementary information. The basic financial statements include two different kinds of statements that present different views of the Authority and the notes to the financial statements.

The first two statements are entity-wide financial statements and provide both long and short-term information about our overall financial status. These statements present governmental activities.

The remaining statements are fund financial statements, which focus on individual parts of the Authority in more detail.

The notes to the financial statements explain some of the information in the statements and provide more detailed data.

Required supplementary information further explains and supports the financial statement information with budgetary comparisons.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the year ended March 31, 2006

ENTITY-WIDE FINANCIAL STATEMENTS

The entity-wide statements report information about the Authority as a whole using accounting methods used by private companies. The statement of net assets includes all of the Authority's assets and liabilities. The statement of activities records all of the current year revenues and expenses regardless of when received or paid.

The two entity-wide statements report net assets and how they have changed. Net assets are the difference between the entity's assets and liabilities and this is one method to measure the entity's financial health or position.

Over time increases/decreases in the entity's net assets are an indicator of whether financial position is improving or deteriorating.

To assess overall health of the entity you may also have to consider additional factors such as tax base changes, facility conditions and personnel changes.

All of the activities of the Authority are reported as governmental activities. These include the Ambulance Fund and the Fire Fund.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Authority's funds, focusing on significant (major) funds not the Authority as a whole. Funds are used to account for specific activities or funding sources. Some funds are required by law or bond covenants. The Authority also may create them. Funds are established to account for funding and spending of specific financial resources and to show proper expenditures of those resources.

The Authority has the following types of funds:

Governmental funds: All of the Authority's activities are included in the governmental category. These funds are presented on the modified accrual basis, which is designed to show short-term financial information. You will note that the differences between the Authority's entity-wide statements and the fund statements are disclosed in reconciling statements to explain the differences between them. The Authority's governmental activities include the Ambulance Fund and the Fire Fund.

FINANCIAL ANALYSIS OF THE AUTHORITY AS A WHOLE

Our cash position is strong. The Authority owns the land and the building free of debt or obligation.

The Authority's equipment is all paid in full with the exception of \$44,194.81 on a 2002 Fire Truck and \$50,003.67 on a 2003 Ambulance.

FINANCIAL ANALYSIS OF THE AUTHORITY'S FUNDS

The Ambulance Fund pays for all of the Authority's ambulance operations which totaled \$181,337.80.

The Fire Fund pays for all of the Authority's fire operations which totaled \$180,792.94.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the year ended March 31, 2006

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

The Authority's governmental activities invested \$14,000.00 in capital assets.

The Authority's governmental activities paid \$28,725.06 of principal on contracts payable.

KNOWN FACTORS AFFECTING FUTURE OPERATIONS

The Authority's revenue is based on taxable value and households, both of which continue to increase.

CONTACTING THE AUTHORITY'S MANAGEMENT

This financial report is designed to provide our taxpayers, creditors, investors and customers with a general overview of the Authorities finances and to demonstrate the Authority's accountability for the revenues it receives. NOTES TO FINANCIAL STATEMENTS
March 31, 2006

Note 1 – Summary of Significant Accounting Policies

The accounting policies of the Laingsburg, Sciota, Woodhull Emergency Services Authority, Shiawassee and Clinton Counties, Michigan, conform to generally accepted accounting principles as applicable to governmental units.

Reporting Entity

The financial statements of the Authority contain all the Authority funds that are controlled by or dependent on the Authority's executive or legislative branches.

The reporting entity is the Laingsburg, Sciota, Woodhull Emergency Services Authority. The Authority is governed by an appointed Commission. As required by generally accepted accounting principles, these financial statements present the Authority as the primary government.

Government-Wide and Fund Financial Statements

The government-wide financial statements, (the Statement of Net Assets and the Statement of Changes in Net Assets) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All the Authority's government-wide activities are considered governmental activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments and other items not properly included among program revenues are reported as general revenue.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, restricted resources are applied first.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS
March 31, 2006

Note 1 – Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The Authority reports two funds, the Fire Fund and the Ambulance Fund.

Assets, Liabilities and Net Assets or Equity

Bank deposits and investments – Cash and cash equivalent investments include cash on hand, demand deposits, certificates of deposit and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables

Receivables have been recognized for all significant amounts due to the Authority. Allowances for uncollectible accounts have not been provided for in that collection is not considered doubtful and any uncollected amount would be immaterial.

Inventories

Inventories of supplies are considered to be immaterial and are not recorded.

Property Taxes

The Authority does not levy any property taxes.

Encumbrances

Encumbrances involving the current recognition of purchase orders, contracts and other commitments for future expenditures are not recorded.

Capital Assets

Capital assets are defined by the Authority as assets with an initial cost of more than \$10,000.00 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	75 years
Vehicles and equipment	10-25 years

Compensated Absences (Vacation and Sick Leave)

Employees are not allowed to accumulate vacation and sick pay.

Post-employment Benefits

The Authority provides no post-employment benefits to past employees.

NOTES TO FINANCIAL STATEMENTS
March 31, 2006

Note 1 – Summary of Significant Accounting Policies (continued)

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Note 2 – Budgets and Budgetary Accounting

The following procedures are followed in establishing the budgetary data reflected in these financial statements:

1. Prior to the beginning of the fiscal year, the proposed budget for each budgetary fund is submitted to the Authority Commission for consideration.
2. The proposed budgets include expenditures as well as the methods of financing them.
3. Public hearings are held to obtain taxpayer comments.
4. The budgets are adopted at the activity level by a majority vote of the Authority Commission.
5. The budgets are adopted on the modified accrual basis of accounting.

AUDIT COMMUNICATION AND REPORT OF COMMENTS AND RECOMMENDATIONS

August 11, 2006

To the Authority Commission
Laingsburg, Sciota, Woodhull Emergency Services Authority
Shiawassee and Clinton Counties, Michigan

We have audited the financial statements of the Laingsburg, Sciota, Woodhull Emergency Services Authority for the year ended March 31, 2006. As required by auditing standards generally accepted in the United States, the independent auditor is required to make several communications to the governing body having oversight responsibility for the audit. The purpose of this communication is to provide you with additional information regarding the scope and results of our audit that may assist you with your oversight responsibilities of the financial reporting process for which management is responsible.

AUDITOR'S RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES

We conducted our audit of the financial statements of the Laingsburg, Sciota, Woodhull Emergency Services Authority in accordance with auditing standards generally accepted in the United States. The following paragraph explains our responsibilities under those standards.

Management has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets, and for devising an internal control structure that will, among other things, help assure the proper recording of transactions. The transactions that should be reflected in the accounts and in the financial statements are matters within the direct knowledge and control of management. Our knowledge of such transactions is limited to that acquired through our audit. Accordingly, the fairness of representations made through the financial statements is an implicit and integral part of management's accounts and records. However, our responsibility for the financial statements is confined to the expression of an opinion on them. The financial statements remain the responsibility of management.

The concept of materiality is inherent in the work of an independent auditor. An auditor places greater emphasis on those items that have, on a relative basis, more importance to the financial statements and greater possibilities of material error than those items of lesser importance or those in which the possibility of material error is remote.

For this purpose, materiality has been defined as "the magnitude of an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement."

An independent auditor's objective in an audit is to obtain sufficient competent evidential matter to provide a reasonable basis for forming an opinion on the financial statements. In doing so, the auditor must work within economic limits; the opinion, to be economically useful, must be formed within a reasonable length of time and at reasonable cost. That is why an auditor's work is based on selected tests rather than an attempt to verify all transactions. Since evidence is examined on a test basis only, an audit provides only reasonable assurance, rather than absolute assurance, that financial statements are free of material misstatement. Thus, there is a risk that audited financial statements may contain undiscovered material errors or fraud. The existence of that risk is implicit in the phrase in the audit report, "in our opinion."

To the Authority Commission
Laingsburg, Sciota, Woodhull Emergency Services Authority
Shiawassee and Clinton Counties, Michigan

In the audit process, we gain an understanding of the internal control structure of an entity for the purpose of assisting in determining the nature, timing, and extent of audit testing. Our understanding is obtained by inquiry of management, testing transactions, and observation and review of documents and records. The amount of work done is not sufficient to provide a basis for an opinion on the adequacy of the internal control structure.

SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are described in Note 1 to the financial statements.

OTHER COMMUNICATIONS

Auditing standards call for us to inform you of other significant issues such as, but not limited to, 1) Accounting estimates that are particularly sensitive because of their significance to the financial statements or because of the possibility that future events affecting them may differ markedly from management's current judgments; 2) Significant audit adjustments that may not have been detected except through the auditing procedures we performed; 3) Disagreements with management regarding the scope of the audit or application of accounting principles; 4) Consultation with other accountants; 5) Major issues discussed with management prior to retention; and 6) Difficulties encountered in performing the audit.

We have no significant issues, regarding these matters, to report to you at this time. Audit adjustments were minimal, and are available to review.

COMMENTS AND RECOMMENDATION REGARDING INTERNAL CONTROLS/ COMPLIANCE/ EFFICIENCY

Our procedures disclosed the following conditions that we would like to bring to your attention:

SEGREGATION OF DUTIES

A separation of duties between persons who authorize transactions and persons who have control over the related assets does not always exist.

The least desirable accounting system is one in which an employee is responsible for executing the transaction and then recording the transaction from its origin to its ultimate posting in the General Ledger. This increases the likelihood that intentional or unintentional errors will go undetected. In most cases, adequate segregation of duties substantially increases control over errors without duplication of effort.

We understand that due to the size of needed staff, a proper segregation of duties may be impractical and the "cost to benefit" relationship may not justify the addition of accounting staff to accomplish the desired segregation.

These conditions were considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the Authority's financial statements and this communication of these matters does not affect our report on the Authority's financial statements, dated March 31, 2006.

SUMMARY

We welcome any questions you may have regarding the foregoing comments and we would be happy to discuss any of these or other questions that you might have at your convenience.

Sincerely,

CAMPBELL, KUSTERER & CO., P.C.
